Non-District Supported Software - IUSD Educational Technology

Dear Parents/Guardians,

Recently, both the State and Federal Government have enhanced protections for student information, particularly where educational technology is concerned. By using this technology, student learning can be made relevant to real world experiences, support the foundation of new Common Core standards, and prepare students with the necessary 21st century skills.

IUSD policy requires teachers to provide their students with lessons in digital citizenship, to emphasize, model, and practice the importance of acting appropriately online before using any software or applications with students.

District-supported software programs that meet the new requirements can be found at http://iusd.org/software. All other online software programs and websites are considered non-District supported software, therefore, parent permission may be required. Throughout the school year I may use the following software that is not listed by the district:

Software Title	Description	Login	Password	Privacy Policy
Core5	Core5 provides explicit, systematic, personalized reading instruction for grades TK-5.	Permanent ID	wostu Network Password	http://lexialearning.com/privacy/lexia-privacy-policy/
